**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 29-32, drawn to a method for enhancing the deposition of benefit agents, classified in class 424, subclass 78.02.
  - II. Claims 33-37, drawn to a method for treating hair loss, classified in class 424, subclass 70.12.
  - III. Claims 38-42, drawn to a method for inhibiting hair growth, classified in class 424, subclass 70.27.
  - IV. Claims 43-47, drawn to a method for treating the effects of aging, classified in class 424, subclass 59.
  - V. Claims 53-57, drawn to a method for depigmenting skin, classified in class 424, subclass 78.03.
  - VI. Claims 58-62, drawn to a method for treating the disease of dandruff, seborrheic dermatitis, and psoriasis, classified in class 424, subclass 404.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I-VI are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case, the different inventions have different functions (i.e. the

Art Unit: 1751

inventions of Groups I-VI are used in distinct methods for treating different areas of the body with different compositions). Prior art that would render obvious or anticipate one method of use would not necessarily render obvious or anticipate the other methods of use.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and recognized divergent subject matter, restriction for examination purposes as indicated is proper.

3. A telephone call was made to Erin Harriman on August 23, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
